class diagrams from "User Account"

①

User

Attributes:

name $\rightarrow$ string

family $\rightarrow$ string

id $\rightarrow$ int

phone number $\rightarrow$ int

email address $\rightarrow$ email
string

Address $\rightarrow$ string

function - method:

- ثبت نام

- ورود

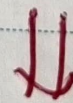

- خروج

- مشاهده
اطلاعات
پروفایل

- ویرایش
اطلاعات
پروفایل

- مدیریت حساب کاربری

extend

① Authentication

② profile management

① profile

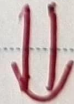

Attributes:

- name $\rightarrow$ string
- عنوان $\rightarrow$ jPg - PNG
- شماره $\rightarrow$ int
- دایره $\rightarrow$ string
- city $\rightarrow$ string
- Id $\rightarrow$ int
- Country $\rightarrow$ List

function - method:

- نمایش اطلاعات
پروفایل
- ویرایش اطلاعات
پروفایل
- تغییر تصویر پروفایل

extend

① user

② Authentication

Security

- Email Address $\rightarrow$ string email
- password $\rightarrow$ string and int
- Remember me $\rightarrow$ tick
- forgot password $\rightarrow$ Button
- Enter OTP $\rightarrow$ int
- Verify $\rightarrow$ control

Attributes:

- change password
- monitor unauthorized
- change email or mobile phone
- set password
- secure account sign-in

function/method:

extend

① Authentication

② Notification
System

③ User

(4)

Authentication

Attributes:

- Email Address $\rightarrow$ string
email
- password $\rightarrow$ string
- forgot password $\rightarrow$ Button
- Login with social media $\rightarrow$ Button and verify
- enter otp $\rightarrow$ int
code
- Mobile number $\rightarrow$ int

method / function:

- ام از هویت کاربران
- ورود
- خروج
- فعال سازی ام از هویت دو مرحله ای

extend

① Security

② User

③ Notification System

5

Notification system

Attributes:

- Notification ID string
- message string
- profile $\rightarrow$ panel

method / function:

- send Login Alert
- send security Alert
- send password change Alert
- send 2FA verification

extend

- ① Security manager
- ② User
- ③ profile

class diagrams from "message"

Manager

④

Attachment Manager

Attributes:

- Attachment ID $\rightarrow$ string
- file name $\rightarrow$ string

function / method:

- attach file
- Download file

extend

① Message system

Message Notification

Attributes:

- Notification ID $\rightarrow$ String

- Message Alert $\rightarrow$ String

function/Method:

- Notify new message

extend

① message system
② Notification system

① Guest

Attributes:

- guest ID → string

- name → string

- last name → string

function/method:

- request Booking

- view Booking

extend

① Booking system

② payment Gateway

Q

Booking system

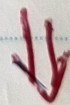

Attributes:

- Booking ID $\rightarrow$ string
- status $\rightarrow$ string

Method - functions:

- create Booking
- view Booking
- verify payment

extend

- ① payment Gateway
- ② Booking storage

Payment gateway

- Transaction ID $\rightarrow$ string Attributes:

- Payment status $\rightarrow$ string

method / function:

- process payment

- verify payment

extend

① Booking storage

② Notification
